

## **POSTPONEMENT OF LIVE BIBLE TEACHING VIA ZOOM**

My wife Carlene, has had a prolonged battle with cancer; beginning with surgery for ovarian cancer in 2017, followed by intensive chemotherapy which left her permanently weaker in coping with the everyday responsibilities of life. This also left her more vulnerable during the Covid Pandemic, which by the grace of God and a healthy dose of common sense, she successfully survived.

Since then, she has suffered from a series of skin cancers, beginning with basal cell, then followed by squamous cell, and most recently, the most dangerous of all, melanoma. Again, by the grace of God, she has survived them all and continues to live a meaningful life for Christ as my partner in this online ministry. But most recently, her dermatologist discovered two pre-cancerous growths on her back, as well as the need for a biopsy from a growth on her scalp. That biopsy confirmed that the lesion was a cancerous basal cell which required an additional procedure.

As a result, I have decided to not add any more responsibilities to my current schedule, in my everyday life or when it comes to ministry. This means that I will be indefinitely postponing, for the foreseeable future, the Bible teaching seminars via Zoom, requested by many of my connections and Christian friends in Africa, India and Pakistan. At the same time, I will continue to post written Bible studies on my various platforms every Tuesday, which will have to suffice for the current spiritual need of the moment, among those who are genuinely hungering for the Word of God. I would also encourage those who have not yet accessed our online ministry website listed below, to do so. It contains a wealth of Biblical studies in the form of teaching videos in the archive section, as well as written articles in the notes section of the site. If you have a question about any of those studies, please let me know.

Sincerely in Christ,  
Henry Igras – Acts 28:31
